

ZERO-FOOTPRINT PACS/RIS

Exceed PACS is an innovative single-platform PACS/RIS solution that delivers superior medical imaging with a powerful advanced workflow management system driven by a zero-footprint 100% cloud-based architecture.

Exceed PACS is designed for ultimate simplicity without compromising any functions, features or capabilities. The robust platform allows access virtually anywhere, anytime with a reliable, single-point access to patient information.

Simplicity without compromise

Increase Efficiency

Reduce Administration Time

Access Anywhere, Anytime

Fast, Reliable and Secure

Exceed PACS

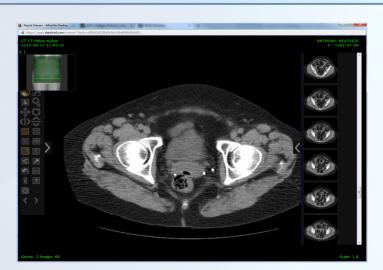

Streamline Workflow Management

EXCEED PACS'S KEY FEATURES:

- Advanced Toolset for Rapid Image Optimization
- Zero-Footprint, 100% Cloud-Based Architecture
- No Software Download Required for Users
- Powerful Workflow Engine and Real-Time Worklist

- Unlimited Users, Workstations and Facilities
- Customizable Reports and Results Tracking
- Seamlessly Embedded Speech Dictation

READ FROM ANYWHERE

Exceed PACS solutions streamline operations with a powerful workflow engine and real-time worklist for multi-site reading while providing consistent viewing environments for radiologists. Whether conducting preliminary or final reads, Exceed PACS understands that receiving the images with original quality and returning the report in a timely manner is the most critical part of the workflow.

INNOVATIVE MEDICAL IMAGING

Traditional PACS/RIS systems require a significant, upfront capital investment in computer hardware, software, custom programming and IT support. Exceed PACS has developed a simple-to-use, device-agnostic platform to maximize all the benefits of a robust, 100% cloud-based infrastructure without large capital investments and long-term IT maintenance concerns.
